

PROFILE

Results-driven Frontend Engineer with 4+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, and modern JavaScript/TypeScript. Adept at translating UI/UX designs into efficient, maintainable code with a strong focus on accessibility, performance, and user experience. Proven ability to collaborate across teams and deliver clean, production-ready solutions in agile environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, AngularJS, JavaScript (ES6+), TypeScript

Styling: Tailwind CSS, CSS Modules, SCSS, Bootstrap, Shadcn/UI

State Management: Redux, Zustand, Context API

APIs: REST, GraphQL (Apollo Client, URQL)

Testing: Jest, Cypress, Playwright

DevOps: CI/CD, Vercel, Netlify, GitHub Actions

Version Control: Git, GitHub

Other: Performance Optimization (Code Splitting, Lazy Loading, Memoization), SEO, SSR/SSG

PROFESSIONAL EXPERIENCE

Frontend Engineer (Remote)

Freelance / Personal Projects | Dec 2020 – Present

- Designed and developed modern web interfaces using React.js and Next.js.
- Implemented responsive layouts and reusable UI components with Tailwind CSS and Shadcn/UI.
- Integrated REST and GraphQL APIs for data-driven applications.
- Improved performance with lazy loading, memoization, and code splitting.
- Deployed applications to Vercel and Netlify using CI/CD pipelines.
- Collaborated with designers and backend engineers to deliver production-ready applications.

Frontend Engineer Intern

Hotels.ng (Remote) | May 2020 – Aug 2021

- Worked on a developer marketplace dashboard with a cross-functional team.
- Partnered with UX designers to improve product usability through research and iterative feedback.
- Implemented new UI modules and maintained existing features in line with design requirements.
- Participated in agile sprints, code reviews, and QA testing.

NYSC Service Year

Feb 2024 – Jan 2025

PROJECTS

Pristin Capital | Next.js, TypeScript, TailwindCSS

A modern fintech web application designed to help users manage and grow their investments seamlessly. Features a responsive dashboard, authentication system, and dynamic portfolio tracking. Built with scalability and performance in mind using Next.js and TypeScript.

Pulita Energy | Next.js, TypeScript, TailwindCSS

A corporate website for an energy solutions company that sells industrial generators. The platform showcases products, project case studies, and a clean user interface optimized for performance and SEO using Next.js's SSG/SSR capabilities.

Jowis Studio | React.js, TailwindCSS

A creative studio landing page built with React and TailwindCSS. It features smooth animations, a modern hero section, and a responsive layout that highlights the studio's design services and creative portfolio.

EDUCATION

B.Sc. in Mathematics and Computer Science

University of Lagos | Jan 2018 – 2022

Relevant Coursework: System Design & Architecture, Web Development (JavaScript, PHP), Data Structures & Algorithms, Database Management (MySQL).
